2. MANAGEMENT DISCUSSION AND ANALYSIS:

A] Share Capital:

During the year, the Company has allotted further 13,75,00,000 Equity Shares of Rs. 10/- each for cash at a premium of Rs. 30/- per Share on preferential basis to promoter Group companies and others to augment equity for funding the ongoing expansion projects. All the new shares issued are listed on BSE Limited and National Stock Exchange of India Limited. The Company has plans to raise further share capital through preferential issue route during the current year also to further augment the requirement of funds for various projects under implementation.

B] Financial Performance:

The Members may be pleased to note that despite falling sales realizations and other unfavourable market conditions, the Company has maintained the overall gross turnover level for the year under review. The gross Turnover of the Company for the year is Rs. 2854.52 Crores against Rs. 2856.71 Crores in the previous year. Major contributors to retain the Turnover at previous year's level are larger volumes of production and sales of Billets and Rolled Products in Steel Plant Division. It would have been higher but for the suspension of operations in Steel Plant Division for some time on account of scheduled Capital Repairs and unprecedented heavy rains. In addition, recessionary pressures especially in automotive component industry resulting into lower off-takes and longer credit periods, added to the woes.

Higher other expenses on account of capital repairs, equipment hire charges, freight etc. and depreciation impacted the profitability of the Company leaving the Net Profit for the year at Rs. 28.65 Crores as compared to Rs. 53.80 Crores of the previous year.

During the year, the Networth of the Company has jumped to Rs. 1806 Crores from Rs. 1228 Crores in the previous year, mainly on account of preferential issue of shares and consequent accretion to Securities Premium account.

Segment wise performance for the year under review is as under.

Steel Plant Division:

Considering the market scenario, overall performance of this Division during the year under review was satisfactory. Despite falling prices of steel, closure of operations for about 3 weeks, the production and sales have been maintained at the same level as the previous year. Overall Segment revenue in this division was Rs. 2388 Crores as compared to Rs. 2359 Crores in the previous year. Arising out of focus on production of value added Steel Billets, intermediaries and Finished Rolled products demanding more captive usage of Hot Metal, there is scaledown in the production and sale of Pig Iron and skull. The total sales turnover from the Billets and Rolled Products is higher by 8% as compared to that in the previous year. During the year, sinter plant as well as the existing and new Coke Oven plants gave a good support and the Division made the highest possible use of the sinters and metcoke produced in the captive plants that helped control the costs of materials consumed.

ii) Castings Division:

Overall Sluggish market demand affected the Iron and Steel Castings Division of the Company also. Consequently, the production in Casting Division of the Company was lower by 28% as compared to previous year's level. Gross turnover of this division was lower by about 10% when compared to the previous year.

The Division continues to focus on higher productivity, cost optimization and high quality of castings which are the key drivers for maintaining the market share in this business. With the augmentation of improved machineries and upgraded processes, new High Pressure Moulding Line which will be commissioned soon at Automotive Castings Division, the production and sales of the Division are expected to go up in the near future.

C] Scheme of Arrangement:

As the Members are aware, the Shareholders of the Company have at their meeting held on 20.04.2012 in accordance with the directions of Hon'ble High Court, at Bombay, Bench at Nagpur, Nagpur, approved the Scheme of Arrangement, for merger of Steel Division of Corporate Ispat Alloys Limited at Raipur with this Company.

The Secured Creditors have also signified their approval to the Scheme. At an adjourned meeting of the Secured Creditors held on 28.05.2013, as per directions of the High Court, the said Scheme of Arrangement has been unanimously approved formally. Further steps in the matter are underway.

After obtaining sanctions from the High Courts having jurisdiction and statutory filings, the Scheme of Arrangement will come into force w.e.f. the Appointed Date; namely, 01.04.2008.

On the Scheme coming into force, the Integrated Steel Complex of the Company will have in its fold amongst others Blast Furnace, Steel Melting Shops, Rolling Mills, Hot Strip Mill, Railway Sidings and Oxygen Plants besides Coal Mines.

D] Projects:

As the Members are aware, the Company with a view to optimize costs and explore its potential in finished steel making in the long product segment, is in the process of setting up of further various facilities including Mining under its Steel Plant Division in the State of Chhattisgarh and Jharkhand. The Company has also undertaken need based additional revamping and modification schemes to achieve smooth operations of some of the existing facilities at Raipur and enhancement in the capacity of the Automotive Casting Division at Nagpur. Briefly, the status of various projects under implementation is as under:

1. INTEGRATED STEEL PLANT PROJECT:

The Facilities being implemented as a part of this Project are as follows:-

a. Steel Melt Shop and Rolling Mill:

This is Company's one of the key value added projects. On becoming fully operational the Company's enhanced capacity for Steel Melt Shop and Rolling Mill will be 7.10 Lacs MTPA and 7.50 Lacs MTPA respectively. The Company would be in a position to produce Alloy Steel Bars and Rods for Automotive Components/ industrial uses and medium structurals for Transmission Line Towers and Industrial / Housing Applications.

The EPC Contract for the project has been awarded. All the statutory approvals for the project have been received. The Construction of the Project is in advanced stage. Orders for critical equipments and other supplies have been placed with reputed international and national vendors and deliveries of the major equipments have already started.

b. Coal and Iron Ore Mines Development:

This part of the project is aimed at development and expansion of Coal Mines at Gare Palma IV/4 Non Coking Coal Block for expansion in capacity from 4.80 Lacs MTPA to 10.00 Lacs MTPA, development of Gare Palma IV/8 Non Coking Coal Block, setting up of 18 Lacs MTPA Coal washery at Raigarh and the Iron Ore Mines at Laindongri and Devpura in Chhattisgarh. Requisite clearances from the concerned

statutory authorities are being organized concurrently and the development and the implementation work is under progress. EPC Contract for this Project also has been awarded.

c. Sponge Iron and Power Plant:

The Company is implementing this project comprising of 3.0 Lacs MTPA DRI/ Sponge Iron Plant, 50MW Waste Heat Recovery and Coal Fired Boiler based Power Plants in Bilaspur district. This is a Green field Project. Land acquisition and procurement activities are in process. EPC contract for the project has been awarded. Most of the statutory clearances for this project have been received.

Overall, the Integrated Steel Plant Project is facing some time delays due to delays in regulatory approvals, land acquisition and other external issues which are beyond the control of the Company. However, the Company is committed and confident to commission the project at the earliest.

2. PELLETISATION PLANT:

Low cost dump fines of Iron Ore are adequately available at Mines and other sites. The quality of these fines can be upgraded by beneficiation and further used for pelletisation. This would help extensive use of fines into pellets that will replace sized ore and thereby reduce their cost for production of hot-metal and ultimately steel. The Company is setting up 12 Lacs MTPA Pelletisation Plant in the existing Steel Plant complex of the Company at Raipur. The EPC contract for the project has also been awarded.

The progress of this project is as per schedule. Orders for all the major project packages have been placed. the civil and structural work is going on smoothly. The Company is confident to commission this Project ahead of its Appraised Completion Date.

3. DEVELOPMENT OF MOITRA COAL BLOCK:

The Company is developing its Moitra Coking Coal Block for coking coal and will be setting up 10 Lacs MTPA Coal Washery near Hazaribagh in Jharkhand. The Company has acquired about 214 Acres of land for the purpose so far. On becoming operational, the coking coal extracted and washed from this coal block will be blended with imported coal at the Company's coke oven plants at Raipur to produce Low Ash Metcoke for use as Fuel feed in the Blast Furnace.

The Moitra Coal block project is facing some time delays due to land acquisition challenges in the Jharkhand State. Despite various bottlenecks, the Company is striving very hard to commission this Project and commence mining at the earliest.

DE-BOTTLENECKING & AUGMENTATION OF FACILITIES PROJECT:

The Company has undertaken de-bottlenecking of some of its existing facilities and modifications in its Steel Plant Division at Raipur and Automotive Castings units at Nagpur to improve the overall productivity and operations of the plants. EPC contract for the project has been awarded. Key project packages have been ordered and the progress of the project including the civil and structural work is going on as per its schedule.

In addition, certain need based capital expenditure schemes at its Steel Plant Division, Raipur are under implementation which will facilitate smooth operations of the plants, help reduce the process time, dependence on the hired equipments, minimize idle time and break-downs. The EPC contract for these schemes has also been awarded.

E) Outlook:

As per official estimates Indian GDP is expected to grow at 6.40% in FY 2013-14. However, analysts have scaled down the GDP forecasts for FY 13-14 to 5.5% mainly due to marginal growth in Mining and manufacturing sectors resulting into poor growth in IIP. Indian steel demand is also expected to track GDP growth supported by some easing in the interest rate cycle, and consequent push in demand of the automotive and auto components sector. Regulatory authorities are faced with a daunting task to contain spiraling inflation, weakening rupee against major foreign currencies, Law and order problems, stringent regulatory procedures and political pressures which culminate into disruption of the various industrial activities. With the additional capacities being created by the Company in finished steel making in the long products segment, adoption of various austerity measures and other efforts; the Company is trying to sustain in such adverse conditions.

On captive Iron Ore and Coal Mines and other expansion projects becoming fully operational, your Company is slated to become one of the lowest cost players in Integrated Steel Plant category in the Country.

With the release of macroeconomic data it is seen that the growth in real estate sector has not shown much improvement, The Government is trying to give push to the Infra sector by removing the hurdles in their implementation which could eventually push growth in Private Investment and Capital Goods sector.

F) Concerns:

During last one year or so the US Dollar has appreciated by over 20% against the Indian Rupee. It will have adverse impact on the procurement of imported coking coal. Law and order problems in Iron Ore Mining belts in Chhattisgarh is another concern not only for the Company but for the economy as a whole; creating serious problems for governmental and social machineries. This has already delayed operationalisation of the Iron Ore Mines of the Company in those regions. Nevertheless, all efforts to start those Mines are being made.

The Company is exploring all possible ways and means including legal courses with the Government to get the Iron Ore and Iron Ore mining rights.

G) Internal Control Systems:

The Company has a risk focused; Internal Control System to analyze and report to the management on the dayto-day operations of the Company. Efforts are being made to continuously strengthen it further. The Company is in tune with the growing size of the business, in the process of strengthening systems that improve the MIS and controls in respect of day-to-day operations of the Company.

Industrial Relations:

Industrial Relations in all the Divisions of the Company remained cordial and peaceful. During the year, average number of persons working in the Company was about 9000 approximately.

Corporate Social Responsibility:

At Jayaswal Neco, Corporate Social Responsibility encompasses much more than social outreach programmes and is an integral part of the way the Company conducts its business. As a part of its social responsibility and as a good corporate citizen, the Company regularly undertakes various programmes with a view to promote and protect a congenial and eco-friendly atmosphere in and around the plants/mines and to serve and contribute to the welfare of the society in general. Some of the activities it has taken up in about 43 Gram Panchayat areas around the plants and in mining areas during the year under review are as under.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2013

NOTE: 1 STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

1.01 BASIS OF PREPARATION OF FINANCIAL STATEMENTS:

The Financial Statements are prepared under the historic cost convention in accordance with the generally accepted accounting principles in India and the provisions of the Companies Act. 1956.

1.02 USE OF ESTIMATES

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual result and estimate are recognized in the period in which the results are known/materialized.

1.03 FIXED ASSETS

- (i) Fixed Assets are stated at cost less accumulated depreciation. All costs including financial cost till commencement of commercial production are capitalized.
- (ii) Expenses incurred relating to project, prior to commencement of commercial operation, are considered pre-operative expenditure and disclosed under Capital Work-in-Progress.

1.04 DEPRECIATION

Depreciation on Fixed Assets has been provided on straight line method at the rates and in the manner laid down in Schedule XIV of the Companies Act, 1956.

1.05 REVENUE RECOGNITION

Interest income is recognised on a time proportion basis.

1.06 FOREIGN CURRENCY TRANSACTIONS

- (i) Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the time of the transaction.
- (ii) Monetary items denominated in foreign currencies at the year end are restated at the year end rates. In case of monetary items which are covered by forward exchange contracts, the difference between the year end rate and rate on the date of the contract is recognised as exchange difference and the premium paid on forward contracts has been recognised over the life of the contract.
- (iii) Non monetary foreign currency items are carried at cost.
- (iv) Any income or expense on account of exchange difference either on settlement or on translation is recognised in the Statement of Profit and Loss.

1.07 BORROWING COSTS

Borrowing costs that are attributable to the acquisition or construction of qualifying assets (net of income earned on deployment of funds) are capitalized as part of the cost of such assets. A qualifying asset is one that takes necessarily substantial period of time to get ready for its intended use. All other borrowing costs are charged to Statement of Profit and Loss.

1.08 EMPLOYEE BENEFITS

(i) Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss/Preoperative expenditure of the year in which the related service is rendered.

(ii) Post employment and other long term employee benefits are recognized as an expense in the Statement of Profit and Loss / Preoperative expenditure for the year in which the employee has services. The expense is recognized at the present value of the amount payable determined using actuarial valuation techniques. Actuarial gains and losses in respect of post employment and other long term benefits are charged to the Statement of Profit & Loss / Preoperative expenditure.

1.09 PRELIMINARY EXPENSES

Preliminary Expenses are charged to the Statement of Profit and Loss in the year in which they are incurred.

1.10 IMPAIRMENT OF ASSETS

An Asset is treated as impaired when the carrying cost of the asset exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is impaired. The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

1.11 PROVISION FOR CURRENT AND DEFERRED TAX

Provision for current tax is made after taking into consideration benefits admissible under the provisions of the Income Tax Act 1961. Deferred tax resulting from "timing differences" between taxable and accounting income is accounted for using the tax rate and laws that are enacted or substantively enacted as on the balance sheet date. The deferred tax assets are recognized and carried forward only to the extent that there is a virtual certainty that the assets will be realized in future.

1.12 PROVISION, CONTINGENT LIABILITIES AND CONTINGENT ASSETS
